

Canada Meter Stamp Newsletter

No. 27

SUMMER 1990

Editor: Ross W. Irwin, PO Box 1263, Guelph, ON., N1H 6N6
Assoc Editor: Dave Cooper, Box 2373, Thunder Bay "P", ON., P7B 5E9

EDITOR'S REMARKS

This issue contains a couple of innovations which we hope to include in future issues. One of these is one or two pages of postmark advertising. In this issue it will take a patriotic note and in the next one I plan to do the Pitney Bowes company advertisements and then a page of Christmas. None of these will be all inclusive but if you have interesting ads to include send me a good copy.

The other item that will be continuing is a single page which will cover the technical description of each postage meter. The purpose is to have such a sheet to accompany our catalog once we get it done. When you look at it if there are details you think should also be included let me know.

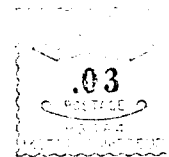

The Nixdorfs are included in this issue. Most of the detail was supplied by Whitehouse, Cooper, Cheberiak and Rich Toop. Thanks, keep up the good work. Notice I have printed it twice. One is numerical by serial and the other is sorted by town to make it easier for you to try out the system of office numbers given on page 26-2.

This issue also contains more than the usual pages of our catalog. Note that Irwin does not own some of the items so please send a good photocopy of any missing item you may have. I also discuss at length on the next page what I think will be the system of numbers we will adopt. Let me know if you have other ideas before we actually get to using them.

Illustrated below is a cover addressed to one of the real early collectors of meter indicia in Canada, and the author of the first listing of the users of Pitney Bowes Type 1 in 1930.

THE ENGINEERING JOURNAL

THE JOURNAL OF THE ENGINEERING
INSTITUTE OF CANADA
2050 MANSFIELD STREET,
MONTREAL 2, CAN.

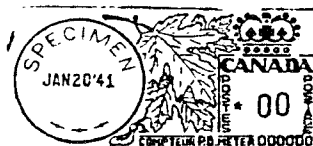

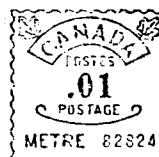

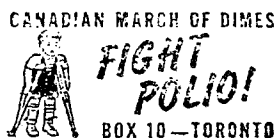

Professor Roger DeLand French,
Professor of Highway & Municipal Engineering,
McGill University,
MONTREAL 2, Quebec.

In our catalog listing I am uneasy about the way I treat the datemark. I am just doing Type 9 for another issue. The date is part of the meter, not loose type, and so the options are: MDY, MY, Y, and blank. Are these all subtypes? The MDY is the standard letter rate. Blank would likely be a printed matter rate of 1c and the other MY and Y could also be the same. My philosophy is if there is a postal rate reason for the configuration then it probably should be included. Any adverse comments? Types 1 and 8 have loose type so the variations are greater but I have sort of adopted the same philosophy.

At the moment there are about 25 basic meter types cataloged. If this were all there were the interest in postage meter collecting would be quite small so we break each major type into sub-types, such as 7.1, 7.2, 7.3, etc., based on some continuing major difference in the indicia. This adds to our collecting challenge. The sub-classes tend to reflect how a meter was used postally as well as smaller differences in appearance. We could include a great many items here but many of them would not be constant varieties, some may be unique, and may not be available to collectors. They get frustrated and leave the hobby. So we need a balance, whatever that may be.

Jean-Guy Dalpe sent me some additions/correction to the post office list from the last issue. I will list these and others you may send in a future issue.

Wilf Whitehouse sends the item below as an example of Type 7.2.19, which was not illustrated in the last issue. Thanks Wilf. Suggest you photocopy it and glue it to the proper catalog page.

The indicia shown above appears to be an essay produced by Pitney Bowes probably for the introduction of the Model R meter series. While it also appears to be similar to the Model J meter series any dates that have shown up are usually not in the 1930's. The essay is reasonably easy to find and it is unusual that no one can state for sure the purpose of it.

INDEX TO METER TYPE FOR CSMG CATALOG

Type	Description of the Indicia
1.1	PB Model M, shield design, "hand" engraved indicia, 4001
1.2	same, with license no., 4002-4305
1.3	same, no license number, incl above
2.1	UPF Midget, rectangular design, 500-513
3.1	UPF Midget, shield design, METER
3.2	same, METRE
3.3	same, METER and Mxxx
3.4	same, METRE and Mxxx
4.1	Franco, METRE 1021
4.2	Franco, METRE NO. 1022-1025
5.1	PB Models HF, H3, HS, shield design 40001
6.1	PB Models HF, H3, HS, square bilingual 40005
7.1	PB Models HX, HT METRE NO. 82400
7.2	PB Models HX, HT METRE
7.3	PB Models HX, HT METER-COMPTEUR
7.4	PB Model CA, Type 1 TM, METRE NO, setting 5
7.5	PB Model CA, Type 1 TM, METRE, setting 5
7.6	PB Model CV, Type 1 TM, METRE, setting 11
8.1	PB Model CV, Type 1 TM, bilingual indicia, METRE 54001
8.2	PB Model CV, Type 1 TM, bilingual, METER-COMPTEUR
8.3	PB Model CV, as above, setting 11
8.4	PB Model CA, as above, setting 5, 04016-18
9.1	PB Model J, METRE, dot before value, 94000
9.2	PB Model JD, METRE, star before value, 94001-34
9.3	PB Model JD, METER-COMPTEUR, star before value, 94035-124
10.1	PB Model Coin-O-Post, 101
11.1	PB Model RT, RF, star before value, 140000
11.2	PB Model RT, RF, 3 wavy lines before value
11.3	as above but 0 before value
11.4	PB Model RF fitted for fractional value 146124, 152626
11.5	PB Mail-O-Mat, 51009-10
11.6	PB single value fractional meter 145776
11.7	as above but dot before value
12.1	NPM Model 45, COMPTEUR 9922
12.2	NPM Model 45, METER-COMPTEUR, 9923
12.3	CC Model 45, METER-COMPTEUR, 40001
13.1	PB Model DM, 240000
14.1	PB Model DM3, 240700
15.1	Roneo Neopost, COMPTEUR/METER NO, 101
15.2	Roneo Neopost, COMPTEUR/METER, 108
15.3	Roneo Neopost, N before serial, 30, 32
16.1	UPF Midget 3, 1
17.1	PB Model R, 149201, 149990
18.1	PB Model RT-7, narrow dots, 156000
18.2	same but medium dots
18.3	same but wide dots and 3 wavy lines 156180
19.1	Postalia Model KF-1501, METER/COMPTEUR/POSTALIA 100100
19.2	same but P to right 100025
19.3	same but P above 100225
19.4	same but value 0.00

- 20.1 PB 5300, short 3 wavy lines, two dots
- 20.2 PB 5300, long 3 wavy lines, no dots
- 21.1 Friden, 300000
- 22.1 Friden, 320000
- 22.2 Friden, 350000
- 22.3 Friden, 360000
- 22.4 Friden, 370000, 380000
- 22.5 Friden, 330000
- 23.1 RN, 700000
- 23.2 RN, 750000
- 23.3 RN, 775000
- 24.1 PB 5711, 800000
- 24.2 same as above but 869500
- 25.1 Hasler 2000000
- 25.2 same but fractional
- 26.1 PB, 1000000
- 27.1 Postalia, 400000
- 27.2 Postalia, 465000

- 40.1 NCR long narrow
- 41.1 NCR 1932 issue

The meters, parcel registers and printing heads beyond 50.1 need to be reorganized and renumbered. I am thinking of starting these at 100 to make room in our numbers for new postage meters. I thought I would start the series with Nixdorf as 100.1. We need your input into the system in order to improve it. Have we missed an important type?

RETURN IN TEN DAYS TO
 CANADIAN WESTINGHOUSE COMPANY LIMITED
 AT OFFICE OF MAILING

Type 1 meter applying 2 cents; however, the letter rate was 3c in 1938 so a Type 5 meter was used to apply the additional postage - but no townmark.

<*****+*****>

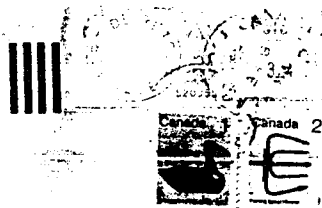

A SELECTION OF PATRIOTIC SLOGAN ADVERTISEMENTS

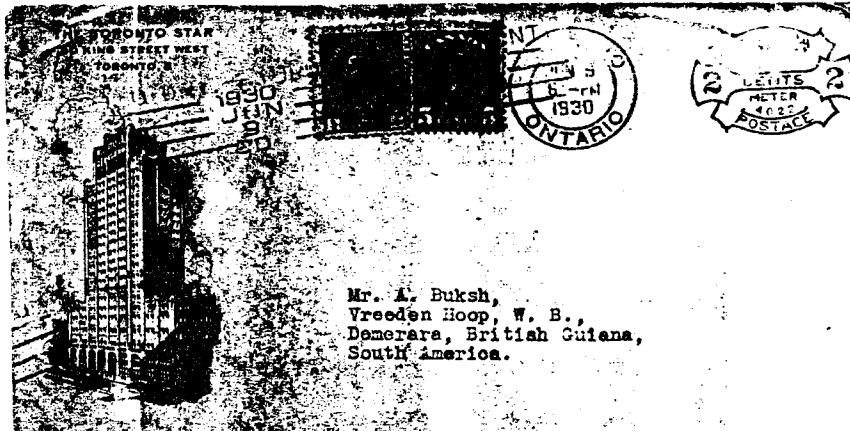

One often sees two franks on a cover but it is unusual to see two townmarks. The secretary did a good job of fitting them together.

NOM JEAN BARRIC
 NAME _____
 ADRESSE 1740
 ADDRESS _____
 VILLE ST-JOSEPH DE LA CROIX (MONTREAL)
 CITY _____

CENTRE **MasterCard**
 275, avenue Viger est, bureau 1542-2
 Montréal (Québec)
 H2X 3T1

Here someone (name shown) in Quebec apparently cut out the POST DE RETOUR PAYE from another cover of different colour and after applying 3c to bring it up to 38c it managed to get through the mail without postage due.

A cover to South America franked with a Type 1 domestic letter rate of 2c but the additional rate to British Guiana of 6c appears to be an airmail rate but there is no label or instruction to that effect. It is a nice cover but somewhat large size.

TYPE 7

CANADIAN METER STAMP GROUP

Postage Meter Detail

Manufacturer: Pitney Bowes	Postage Meter Model: M
Date Approved: August 7, 1923	Serial Block: 4001 - 4005
Earliest Use: Sept. 29, 1973	
Postage Range: Single rate	Maximum Prepaid, \$: 99,999 units
Locks Out, \$: 0 units	Postal ads: No
Ad Plate Size: n/a	Day Suppression: Yes
Return Postage Die: Yes	Tapes: No Wet: Pressure:

Mailing Machine Meter Used On

Model: A, B, F

Capability: A - 250-300/minute, electric, base used Universal cancelling machine
B - 150/minute, electric, desk model
F - 125/minute, small electric, desk model

Description of Indicia

NOTES TO THE CANADA TOWN LIST

* These names appear without the provinces in the townmarks of Nixdorf postal registers used at retail post offices. These are not post office names as listed in Canadian postal directories, and were apparently used in error. Newer Nixdorf registers show the post office name and province in the townmark, as other meters do.
