

The response to the questionnaire in Newsletter 12 by over 20 members indicates that most of you consider the format, general content and general value of continuing the Newsletter to be valuable. This current issue outlines a few of the suggestions received, some new member notes, examples of early slogans, and more specimen illustrations.

- MEMBERS - Welcome to Mr. Ed Megyesi, 4524 Wolff Drive, Brunswick, Ohio, 44212, USA.
- Rus Handly advises of the correct spelling of his name, and indicates he has collected over 30,000 US and Canadian covers by meter number. He is interested in exchanges.
 - Jean-Pierre Forest has withdrawn and indicates he sold his collection. If any other members arrive at the same decision I'm sure our CMSG membership would be a good place to look for a buyer. Keep it in mind just in case.

QUESTIONNAIRE SUGGESTIONS - The survey brought up some good ideas including the following: (1) a question and answer section - good idea; the Editor will try to research any short questions or steer enquiries to the experts; (2) More information on meter machines, towns, issues and varieties; (3) reprint more obscure references - what do you want to see? (4) lists for shorter types by number and town and user - the Editor thought Type 1 would be easy but now has over 300 entries with 2-3 for specific meter numbers. A good idea - does anyone have a list in the works for any given meter type that the rest of us could contribute to finishing? (5) A document with final town lists for types 1-10 - yep, in preparation the Editor will distribute it when its typed up: "CMSG Misc. Publication No.1" or some such titled series.

CANADA 84 This Exhibition is being held in Montreal October 25-28 1984. To arrange a meeting of any of our members present, Please contact the Editor if you would be present in Montreal during the afternoon of Saturday October 27. Location of Exhibition: Place Bonaventure.

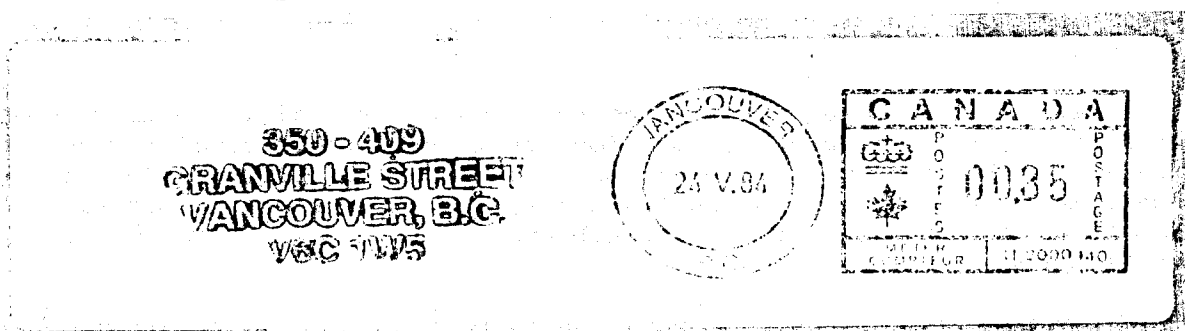

EARLY SLOGANS - numerous examples of early slogans have been brought to the Editor's attention. Here's a few Thanks to Ed Lapham:

- 12 VIII 27 CO-OPERATION/IN/INSURANCE OTTAWA ONTARIO Meter No. M736, Irwin Type 3
- 10 III 28 THE/MIDGET POSTAGE METER/PRINTS YOUR OWN/ADVERTISEMENT IN/THIS PACE IF DESIRED OTTAWA ONTARIO No.502 Type 3
- 14 VI 29 WANT AD/HEADQUARTERS used by the OTTAWA JOURNAL at OTTAWA ONTARIO on no. M910 Type 3

EARLY SLOGANS: James Stuart from North Vancouver sent the list below which he indicates was prepared by the late Mr. C. Garrett in 1966 for the Irwin type 3 meters. The original article also has the values of slugs recorded for each of subtypes 3 A, B and C.

ODDS AND ENDS - Wilf Whitehouse would like some help with Bell Telephone Patriotic cachets. These were in use in both Montreal and Toronto. Toronto dates range from Sept to Dec 1941 while Montreal dates start in June-Dec 1941. Anyone with examples during or before the war period might contact Wilf with photocopies to assist in a compilation. Wilf also sent along a few early slogans and notes that Hasler meters starting with H2000700 can be found small letters in Postes, Postage and the meter number. (illustrated below). Similar US Hasler apparently have seen overall reduction in indicia size because many users had complained of run-over of the impression onto windows of commercial envelopes. Perhaps the same problem existed here in Canada.

Marcel Cool of Chateauguay, Quebec is collecting (oops not another typo!!) Quebec meters by town and meter number. He would like help and provides a short list for his home type and invites additions. Marcel noted also that my reference in Newsletter No. 12 to retreating into the "cool basement" could have meant a bunch of CMSG members arriving at his door which he thought would have been most enjoyable. If you're in the area look him up.

METERS IN USE IN 1933 - An excellent contribution by Ross Irwin follows outlining the number, distribution and types of meters in use in Canada as of January 31, 1933. It would be interesting to hear the details of where and how this information was gathered.

THE USE OF POSTAGE METERS IN CANADA IN 1933

Ross W. Irwin

By 1933 postage meters had been in use in Canada for a decade. The Pitney Bowes Model M postage meter first appeared in 1923 and was followed by the Universal Postal Frankers Midget meter in 1926 and the Pitney Bowes Model H meter in 1929.

There were approximately 400 postage meters in each of the above series available for use. However, by 1933 only the Pitney Bowes Model H was marketed, the others being obsolescent and on a planned program of withdrawal.

Acceptance of postage meters had not advanced rapidly. Total revenue from this source was about \$2 million, or 10 percent of total postage revenue. The sales distribution system was still inadequate. Distribution was in 6 towns in Nova Scotia, 5 in New Brunswick, 7 in Quebec, 21 in Ontario, 4 in Manitoba, 2 in Saskatchewan, 3 in Alberta and 3 in British Columbia. A total of 51 meter towns.

Major reasons for the concentration of postage meters in larger centres were the market potential, and Post Office regulations required that each postage meter be serviced regularly. The postage meter companies found it expensive to place and service postage meters in the smaller towns off the main railway lines.

As of January 31, 1933, there were 702 postage meters in use in Canada. These were distributed: Pitney Bowes Model M - 186; Midget(3) - 190; Midget (5) - 3; Pitney Bowes H5 - 322 and Pitney Bowes Model HS - 1.

Following is a listing of every postage meter in use in each town, together with the name of the user, and the accumulated number of impressions on each postage meter. The information is of use as a guide to the potential scarcity of a certain meter variety.

For example:

| Type | Meter Number | User | Town | Total Impressions |
|-------|-----------------|-------------------------|----------|----------------------|
| 3.2.5 | 689 | James Morrison | Toronto | 79,220 |
| 3.2.3 | 671 | City of Regina | Regina | 120,490 |
| 3.2.2 | 798 | Hudon & Orsale | Montreal | 280,050 |
| 3.3.4 | 634 | Victor Talking Machines | Montreal | 556,360 |
| 5.1.1 | 40140 | Anglo French Drug Co | Montreal | 125,780 |

The numbers are a guide as they represent all denominations on the meter and the location of hoards influence the numbers as well.

107-108 F.T.R. MACHINERY IN OPERATION - up to and including 31st January, 1935.
